Green Recovery

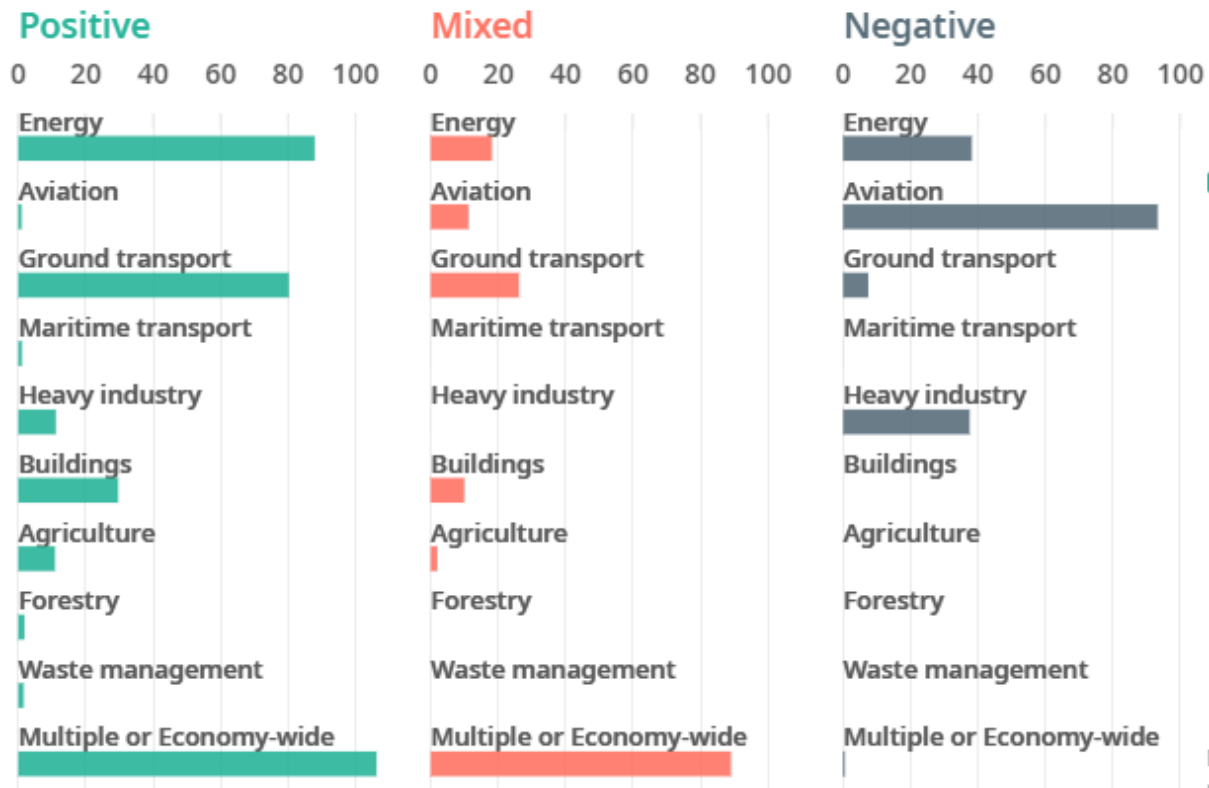

Create 395 million jobs and \$10 trillion in new business opportunities by 2030 at a cost of \$2.7 trillion

– WEF (2020)

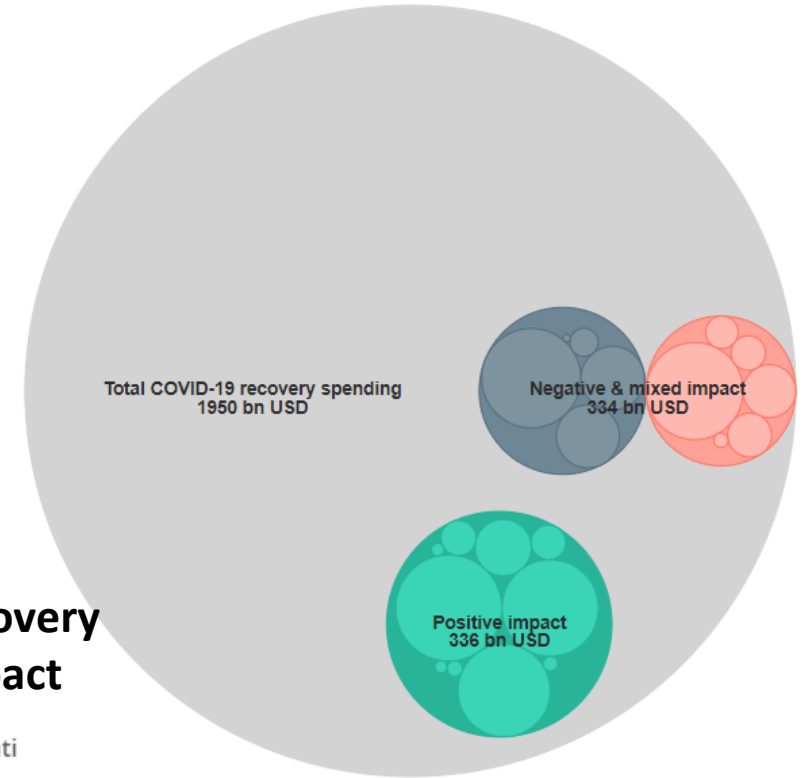

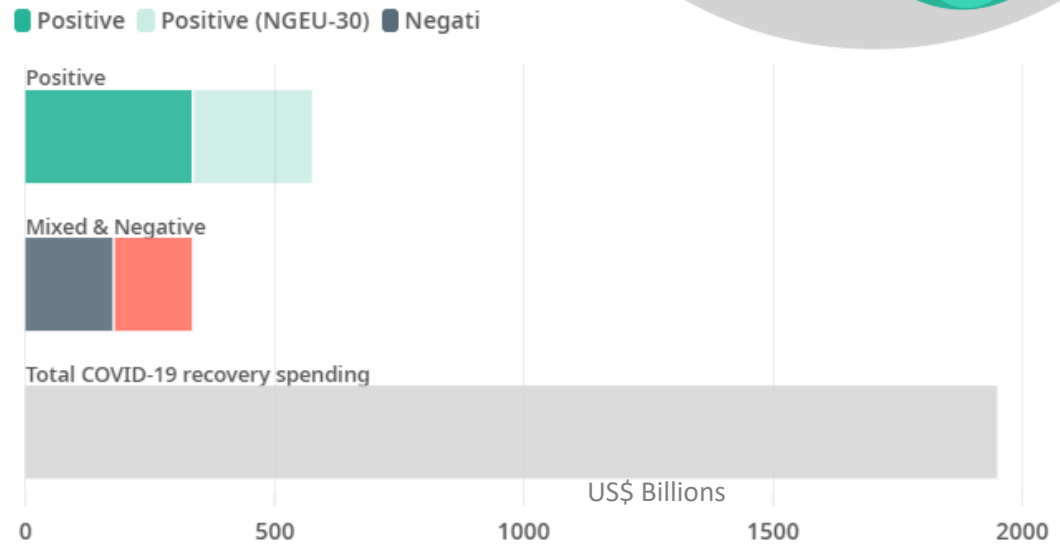

Green Recovery Spending

US\$ 1.95 trillion of spending in the OECD countries

Funds allocated by Sector to recovery

Funds allocated to recovery by environmental impact

Note: NGEU-30 refers to 30% of the European Commission's Next Generation EU funds, i.e. the minimum proportion that is ear-marked for climate-related investments. The amount is shown separately to other environmentally positive measures because funds have not yet been allocated to member states.

Agenda of the webinar
